Carla would be a stay-at-home mom. She would work at her kids school and be even more involved in their activities than she already is.

DO YOU TWEET?

No – Carla claims to be clueless when it comes to Twitter.

WHAT IS SOMETHING MOST PEOPLE DON'T KNOW ABOUT YOU?

She didn't even know this about herself until recently, but over the past several years, has learned that she likes to write poetry. It started when her kids would come home with poetry assignments for school and Carla would always end up creating her own poems along with them. She likes the fact that there are so many different types of poetry and finds it nice to know that she has at least one creative bone in her body—until recently, she claims she had none!
