

Jonathan S. Storper Partner

Jonathan leads the corporate department at Hanson Bridgett. He previously founded and led Hanson Bridgett's sustainable law practice which focuses on developing a more sustainable economy by assisting mission driven companies and high impact investors in a variety of industries. He represents entities and their investors in connection with business and intellectual property transactions, including formation, finance, contracts, licenses, joint venture and development, mergers and acquisitions, licensing, e-commerce, technology-related matters and general corporate law. Jonathan also represents many non-profit charities, foundations, and business associations.

Jonathan chaired the legal working group which drafted and advocated for benefit corporation legislation in California. A benefit corporation is a new class of for profit corporation and the first that is required to create a material positive impact on society and the environment and to meet higher standards of accountability and transparency in addition to creating shareholder value. He was selected as the California Lawyer Attorney of the Year for his work on this legislation which is now the law in 31 states and has been passed into law or introduced in a number of additional states and foreign countries. He is proud that Hanson Bridgett is the first law firm to become a certified B corporation. See <http://benefitcorp.net/> and <http://www.bcorporation.net>

Representative Work

Represented Alliant International University, a multi-accredited university, in its transition from a nonprofit to a venture backed for-profit benefit corporation.

\$158,000,000 acquisition of Zep Solar by Solar City; counsel to the majority shareholder founder.
